University
Preparation

Cambridge IGCSE (Years 10–11)

Our online Cambridge IGCSE courses are internationally recognised qualifications for students aged 14–16. IGCSEs are typically studied over two years and provide a strong academic foundation for progression to Cambridge International AS and A Levels and future academic pathways.

Programme Overview

Aspect	Details
Sequence	Usually studied over two years (Years 10–11), with final examinations taken at the end of the programme.
Typical breadth	Students typically study 5 subjects, including core subjects and electives.
Assessment	Most subjects are assessed through externally set and marked written examinations. Some subjects include coursework or practical assessment components.
Progression	Successful completion prepares students for Cambridge International AS and A Levels and future academic progression.

IGCSE Subject Structure

Students typically take 5 subjects: core subjects including English, Mathematics, and Science, plus additional elective subjects based on academic goals and interests.

- Mathematics
- Additional Mathematics
- English Language
- English as an Additional Language
- English Literature
- Computer Science
- ICT
- Business Studies
- Spanish – First Language
- Spanish – Foreign Language
- History
- Sciences (Double Award)
- Biology
- Geography
- Religious Studies
- Economics

Continuous academic monitoring and support

Official examinations completed at authorised exam centres

Cambridge International AS & A Levels (Years 12–13)

Our Cambridge International AS and A Level courses lead to internationally recognised qualifications that prepare students for university and future careers. A Levels are typically completed over two years, allowing students to specialise in selected subjects and develop deep academic knowledge.

Programme Structure

Aspect	Details
Sequence	A two-year programme: AS Level in Year 12 followed by full A Level in Year 13. AS Level can stand alone or progress to full A Level.
Specialisation	Students typically study three subjects. Flexible options allow studying between 1 and 5 subjects.
Assessment	Final exams are typically taken at the end of the programme. Students may also complete AS exams in Year 12.
Grading	Grades range from A* to E.
Recognition	Widely recognised by universities in the UK and internationally.

Available A Level Subjects

- Mathematics
- Biology
- Chemistry
- Physics
- Computer Science
- Information Technology
- English Language
- English Literature
- Psychology
- Sociology
- Spanish Language & Literature
- Business
- Economics
- History

How We Teach

Our Teaching Methodology

Richmond Online School delivers high-quality online education built on expert teaching, personalised support, and structured academic progression. Our methodology combines live teaching, continuous assessment, and independent learning to maximise student success.

Our approach is aligned with the Cambridge IGCSE and A Level curriculum and supports students at every stage of their academic journey.

Teaching Features

Expert Teachers

Highly qualified subject specialists who support and motivate students.

Recorded Lessons

All lessons are recorded, allowing students to review and reinforce learning.

Weekly Homework and Feedback

Regular assignments and feedback ensure continuous academic improvement.

Small Class Sizes

Students benefit from individual attention and active engagement.

Always-on AI Tutor

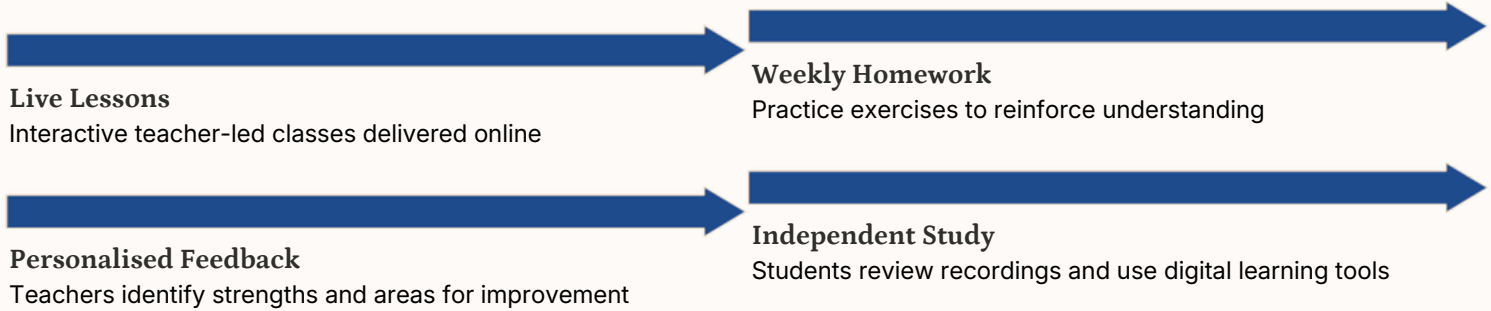

Interactive digital tools support revision, organisation, and exam preparation.

Strong Community and Support

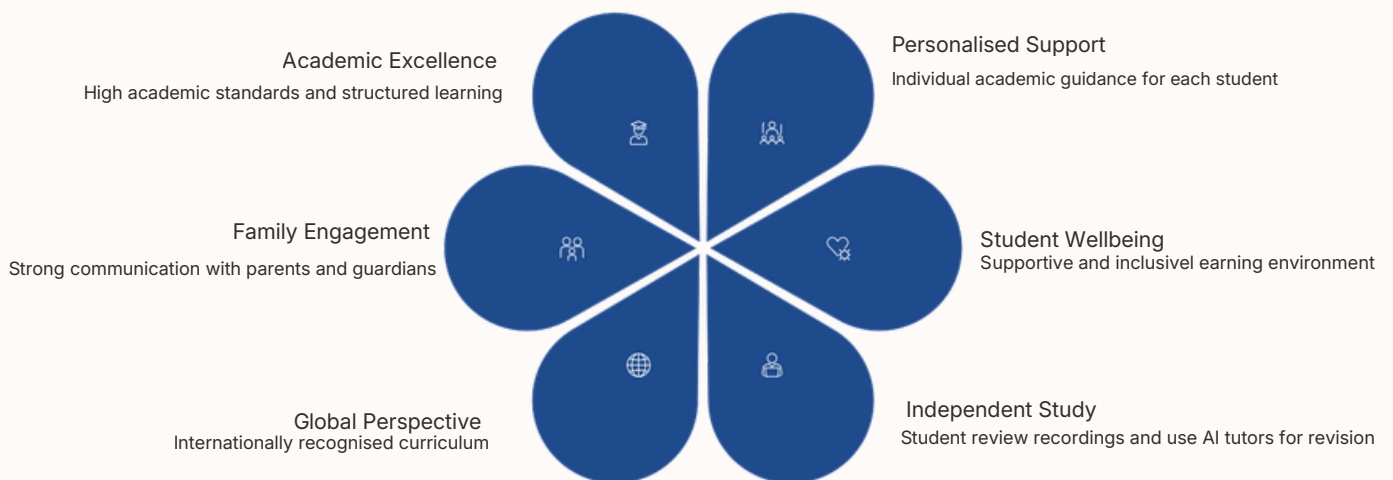

Close communication between teachers, students, and families.

Richmond Learning Cycle

This cycle repeats continuously to support long-term academic success.

Our Educational Values

Technology and Study Requirements

- Laptop or desktop computer
- Webcam and microphone or headset
- Stable high-speed internet connection
- Quiet and distraction-free study environment
