About School

Meridian Lyceum was opened on the 1st of September 2006. In September 2024, the school had 247 pupils and 61 members of staff.

Education is available from kindergarten level up to the 12th (final) grade. The school has the accreditation of a gymnasium school.

The language of instruction within the school is Lithuanian, according to Lithuania's General Education Programme. Additionally, the school has accreditation as a Cambridge International School and is authorized to teach Cambridge Assessment International Education syllabuses and conduct examinations.

A Multicultural Community

The community of our school strongly promotes interaction between children from different countries and an understanding of various cultures. Also, the school enables people from other countries to know and experience the Lithuanian way of life whilst at the same time encouraging them not to forget their own culture, traditions and roots.

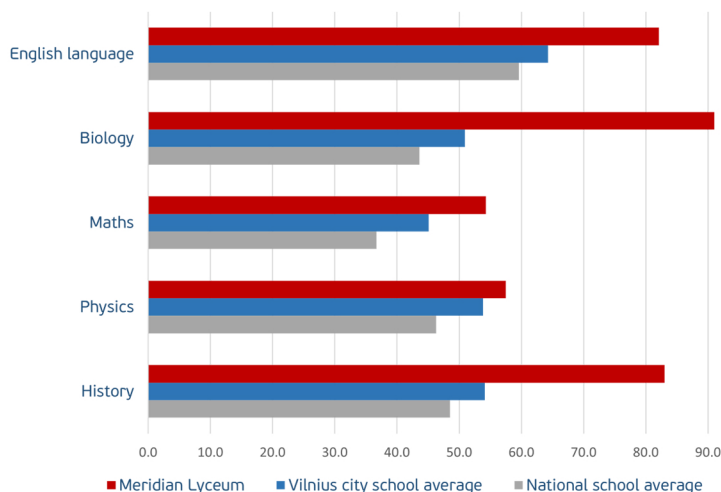

Mission

The mission of our school is to provide quality secondary education, to help the child to integrate according to individual requirements, and to develop the personal qualities required in society.

Philosophy

"A school should not be a preparation for life. A school should be life."
(Elbert Green Hubbard, American writer)
